Copies of those references labeled B3, C3, and C78 are enclosed herewith. Copies of the remaining references were previously disclosed by Applicant or cited by the Examiner in the parent applications hereof, those being U.S. Patent Application Serial No. 09/744,614, filed January 26, 2001, and U.S. Patent Application Serial No. 09/576,623, filed May 23, 2000. Copies of the remaining references will be provided if the Examiner so requests.

It is respectfully requested that the references be made of record in this application by the Examiner's completion and return of the enclosed Form PTO-1449. While no representation is made that any of these references may be "prior art" within the meaning of that term under 35 U.S.C. Sections 102 or 103, the enclosed list of references is disclosed so as to fully comply with the duty of disclosure set forth in 37 C.F.R. Section 1.56.

Moreover, while no representation is made that a specific search of office files or patent office records has been conducted or that no better art exists, the undersigned attorney of record believes that the references listed, together with any other references which may have been previously cited by or submitted to the Office, are the closest to the claimed invention (taken in its entirety) of which the undersigned is presently aware, and no art which is closer to the claimed invention (taken in its entirety) has been knowingly withheld.

This Information Disclosure Statement is filed under 37 C.F.R. § 1.97(b), before the latter of three months after the U.S. patent application filing date or the first Office Action on

the merits. Accordingly, no fee or certification is required. Should any fees be required, however, please charge such fees to Winston & Strawn LLP Deposit Account No. 50-1814.
